

Tennisseries™

Passionate lighting design from Sportlightdesign

DANISH DESIGN

Tennisseries™ *Exclusive materials, Passionate design & Functional illumination*

The Tennisseries™ lighting fixture range combines the beautiful shape of the tennis ball with quality glass and low energy light sources.

The characteristic groove is carefully sandblasted into the surface by hand and gives a unique contrast to the shade when lit.

The range is available in four colors and two surface editions, glossy and matte.

Lights of the Future

Our Designer Søren Momsen

Innovative industrial designer

Søren Momsen graduated from Denmark's Design School in 1997 as Industrial Designer specialized in lighting design.

Søren is internationally recognized for his ability to combine storytelling in light designs. A story that gives the designs more than just the function of lighting up a room. A story of energy being transformed into light and a story that borrows elements from archetypal shapes.

With the Golfseries™ & Tennisseries™ lighting fixtures, Søren Momsen has taken the sculpturally beautiful shape of the golf & tennis ball into a new dimension, creating a series of exclusive and timeless indoor lighting fixtures.

Lights of Tomorrow

Golfseries™

Elegant porcelain lighting design

Golfseries™ *Exclusive materials, Passionate design & Functional illumination*

The Golfseries™ lighting fixtures combines the beautiful, sculptural shape of the golf ball with handcrafted porcelain and well-conceived light distribution. The well-known shape comes to new life as light energy beams through the porcelain.

The Golfseries™ range span across 4 four electrical lighting fixtures and one candle light edition. They all use the same porcelain shade with the diameter of 10 cm.

The electrical light energy comes from Halogen or LED light bulbs without any transformer, making installation a simple process.

The DTF office

The Danish Tennis Federation

At DTF it's all about tennis and improving the game in Denmark. At the office situated just outside of Copenhagen, Tennisseries was selected as lighting solution at the meeting room.

Choosing "Tennisseries"™ was not a tuff decision when you love tennis and for our setting they are perfect. As a lighting fixture they are very decorative and the designer has succesfully combined design, sport and functionality.

Niels Persson, Managing director DTF

About the Federation

Situated: 5 km West of Copenhagen
Members: Federation for +62000 tennisplayers
Products: Tennisseries™ Pendants
Shade colors: Optic Yellow and Orange

Café Match Point

Hørsholm Rungsted Tennis Club

HRT has used Tennisseries™ from Spotlightdesign as indoor decoration in their café. They have used the Tennisseries™ Up-Light and Pendant products lighting up pictures, tables, sponsor logo's and the café counter.

"Tennisseries™ was without doubt the natural choice for our Café. It's a well designed high quality lighting fixture range providing excellent light in a very decorative way".

Annette Wiencken, HRT Chairman

About the Club

Situated: 20 km north of Copenhagen
Members: 1600 +
Products: Tennisseries™ Pendants and Up-Lights
Shade colors: Black, orange, white and yellow

Golfseries™ Spot

Woodlands Country Club

Woodlands Country Club is placed in a hilly Swedish forest landscape with many lakes only 30 minutes by car from Helsingborg. Besides a magnificent 18 hole golf course Woodlands consists of a professional golf academy, a modern club house with a newly established golf shop and a fine restaurant. In the spring of 2007 the building of 59 serviced life style houses commenced.

"Our Golfseries™ lighting fixtures are very nicely made and well designed. We enjoy the change in the porcelain from the high luster surface and cool white expression, to the warm honeycomb look when the light energy beam the shade"
